# ABOUT ME

I grew up loving sports since I was 5 years old. Soccer and taekwondo were the first sports that i did. After 8 years of doing soccer and tae-kwondo, it was time for me to find something new that I would love to

And then I fell in love with the game of basketball. After 3-4 years of progress and practices, becoming more like a professional basketball player. And finally, I have continued to love what i do.
